

ERI Economic Research Institute was founded over 30 years ago to provide compensation applications for private and public organizations. ERI compiles the most robust salary, cost-of-living, and executive compensation survey data available, with updated market data for more than 1,100 industry sectors. ERI collects salary survey data from internal surveys, third-party salary surveys, and public sources to calculate geographic salary differentials and assist with compensation planning.

WHY ERI

Data Collection

Data are gathered from 3 sources: surveys we conduct, surveys purchased from other organizations, and reports from publicly traded organizations.

Analysis

ERI conducts advanced analytics to accurately capture the full scope of an occupation and how it exists in the economy.

ERI Results

Explore ERI's wage, salary, and compensation databases of over 11,000 job titles, 1,000 industries, and 9,000 locations.

Data Verification

After compiling the data, we conduct QA to ensure data are of the highest quality.

Quality Assurance

ERI analysts double-check the results for each job every quarter.
